Creating your Social Story Booklet:

1. Print all pages, single sided
2. Cut the pages in half
3. Staple your booklet together
My Trip to the Mid-Hudson Children’s Museum

This story will help me remember all of the things I need to know to have a safe and fun day at the museum!

1

When my family gets to the Museum we will drive up to a gate.

2

The car will stop and the driver will reach out and get a ticket. Then the gate will open and we can go in.
When we walk inside the Museum we will see a big desk.

I will wait with my family while we pay for our tickets.

When it is time to explore, I will always stay with the adult I came with. They can help me learn about all the fun things in the museum!

If I need help or I can’t find the adult I came with, I should look for a person wearing this blue shirt. They work at the museum and can help me find my family.
Now it is time to have some Fun!

Some exhibits are on the first floor but My Backyard Adventure and The Science Center are on the second floor.

We can choose the exhibit we want to visit first.

To get to the second floor, I can take the stairs I saw when I first came in or I can take the elevator behind Early Learning Junction
If I have to go to the bathroom I should ask the adult I am with to take me.

There are bathrooms at the top and bottom of the stairs.

If I forget where the bathrooms are, I can ask the adult I came with.

If I get hungry, there is a special place I can sit with my family and have food and drink. It is called the Snack Zone.

It is next to The Early Learning Junction. I can have a snack in this area but I will remember not to take any food or drinks outside of the Snack Zone.
If I need a break, I can ask the adult I came with to take me to a place to relax.

Some places in the museum are usually less crowded or quieter. These areas are on our map of the museum.

When I am ready I can get back to having fun at one of the exhibits!

When it is time to leave, I will go with my family to the front desk and get our exit ticket. We will scan this ticket when we drive out the gate in the parking lot.

I had a great time and I hope I can come back and explore more soon!
